Information provided by the provider describing their agency:

Provider Profile

Allie's Dream, Inc. is a full time day program for young adults with developmental disabilities from age 21. It provides learning (cognitive & life skills), social and community experiences for successful involvement in life. Each consumer is encouraged to attain and maintain their maximum potential based on project based learning, multiple therapies, a nurturing environment that promotes independence and self empowerment, and a tapestry of community experiences, all at one location. Allie's Dream believes in person-centered planning to give individuals as much choice as possible.

We offer discretionary selection of supports, services, and program hours, based on a combination of private pay from families, insurances, and fees for services from state and quasi governmental agencies. We ask our consumers and families to access funding from all sources (fees for service, private pay, insurances, and fundraising) to enable us to deliver a high quality program, all necessary supports and services, and expert providers who seek to fulfill your young adult's needs and interests.

We make available a social and recreational community based program that is accessible to families for young adults with developmental disabilities:

- Wish to pay privately for a day program because the consumer is not eligible for any governmental agency services; who may not yet be fully independent; and/or would benefit from a social, safe environment with peers that fosters friendships and camaraderie.
- Who may wish to pay for supplemental supports and services for on site delivery and enhancements at the program so the consumer has an integrated day and is not isolated from peers.
- Who require single or multiple therapies to sustain and maintain health and function with a trained staff who will integrate these goals throughout the day.
- Who would like to provide for an educational and cognitively stimulating experience that helps to maintain expressive interests, life skills, and active participation.
- Who may wish to pay on a per diem basis, by the week, or by the month for a program to coordinate with other activities of the consumer, such as vocational placements, etc.
